RESEARCH INTERESTS

Human-Computer Interaction; Extended Reality; Spatial Computing; 3D User Interface

EDUCATION

Ph.D. in Computer Science, Virginia Tech (expected) Aug. 2026 –

- Advisor: Prof. Doug Bowman

M.S. in Computer Science and Engineering, Korea University Mar. 2024 – Feb. 2026

- Advisor: Prof. Gerard Jounghyun Kim
- Thesis: “JourneyVR: Designing for Continuous Workflow Experience in Virtual Reality”

B.S. in Software, Sejong University Mar. 2019 – Feb. 2024

- Cum Laude

RESEARCH EXPERIENCE

Digital eXPerience Lab, Korea University Mar. 2026 – Jul. 2026

- Researcher (Advisor: Prof. Gerard Jounghyun Kim)

Digital eXPerience Lab, Korea University Mar. 2024 – Feb. 2026

- Graduate Research Assistant (Advisor: Prof. Gerard Jounghyun Kim)
- Proposed and implemented an immersive VR workflow system that supports continuous workflows through a journey-based interaction design, and conducted user studies to evaluate its impact on workflow continuity and user experience
- Contributed to the design and execution of VR-based balance training experiments to investigate cybersickness tolerance, including data collection and analysis

Graphics Lab, Sejong University Sep. 2023 – Jan. 2024

- Undergraduate Research Assistant (Advisor: Prof. Oh-Young Song)
- Proposed and implemented a multimodal interface combining gesture and speech for intuitive control of visual effects in XR environments

Mixed Reality & Interaction Lab, Sejong University Feb. 2021 – Dec. 2022

- Undergraduate Research Assistant (Advisor: Prof. Jong-Weon Lee)
- Designed and implemented interactive systems to enhance accessibility for users with visual impairments

TEACHING EXPERIENCE

Teaching Assistant

• Deep Learning (<i>Korea University</i>)	Fall 2025
• Artificial Intelligence (<i>Korea University</i>)	Spring 2025
• Mathematics for Computer Science II (<i>Korea University</i>)	Fall 2024
• Application of Advanced Programming Language (<i>Sejong University</i>)	Spring 2022
• Basics of Software and Coding (<i>Sejong University</i>)	Fall 2021
• Basics of Software Coding Based on Computational Thinking (<i>Sejong University</i>)	Spring 2021

Tutor

• Unity Programming (<i>Sejong University</i>)	Jul. 2022
--	-----------

AWARDS & SCHOLARSHIPS

Outstanding Exhibition Center (<i>ITRC</i>)	Apr. 2024
• Exhibited VR research focused on enhancing military training and reducing headset weight	
Second Place, Creative Design Competition (<i>Sejong University</i>)	Dec. 2023
• Developed a puzzle game featuring seamless transitions between 2D and 3D perspectives	
Global Excellence Scholarship (<i>Sejong University</i>)	Jan. 2023
• Awarded full-tuition scholarship for outstanding academic performance and leadership in international exchange programs	
First Place, Department of Software Academic Conference (<i>Sejong University</i>)	Jun. 2022
• Developed a VR campus simulation to facilitate freshmen orientation	
Grade Improvement Scholarship (<i>Sejong University</i>)	May 2021
• Awarded for demonstrating significant improvement in GPA	
Language Excellence Scholarship (<i>Sejong University</i>)	Apr. 2019
• Awarded for achieving a TOEIC score of 950+	

ACADEMIC SERVICE

Student Volunteer	Mar. 2026
• IEEE VR 2026	

SKILLS

Programming Language: C#, C++, Python, Java, Swift
VR/AR: Unity, Meta XR SDK, SteamVR, XR Interaction Toolkit
AI: TensorFlow, PyTorch
Data Analysis: JASP, RStudio, SAS, MATLAB
Language: English (Fluent), Korean (Native)
